

HIMANSHU KUMAR SINGH

Full Stack Developer | MERN Stack | AI/ML Enthusiast | Building Scalable Applications

+91 9939555664 | himanshsingh.bit9995@gmail.com | Ranchi, Jharkhand, India | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Developer with expertise in MERN Stack, React.js, Node.js, and RESTful API development, backed by strong fundamentals in Data Structures, Algorithms, and System Design. Proven ability to build scalable, production-ready applications and optimize performance using modern tools like AWS, CI/CD, and MongoDB. Passionate about solving complex problems and delivering high-quality software solutions in fast-paced, product-driven environments..

SKILLS

Languages:	JavaScript, Java, Python
Frontend:	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST API Development
Databases:	MongoDB, MySQL
Tools & Platforms:	Git, GitHub, AWS, Vercel, Postman
Core CS:	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, System Design
Additional:	API Integration, CI/CD

EXPERIENCE

Fire & Safety Solutions Company

[Patna/Remote]

Software Developer Intern | MERN Stack, AWS | [GitHub Link](#)

February 2026 – Present

- Architected and developed a scalable, responsive full-stack business application using the MERN stack (MongoDB, Express.js, React.js, Node.js), improving client onboarding efficiency by 40%
- Engineered secure and optimized RESTful APIs and database queries, reducing data retrieval latency and enhancing overall application performance by 25%
- Implemented automated CI/CD pipelines to support Agile development workflows; currently leading the application through production deployment on AWS and Vercel

PROJECTS

Adaptive Disaster Response System | Python, Machine Learning, Data Analytics

[GitHub Link](#)

- Developed a scalable disaster analysis system using Python and Machine Learning, enabling real-time resource allocation and improving decision-making efficiency during critical scenarios
- Designed and implemented a high-performance backend architecture to process large-scale datasets, optimizing data throughput and reducing system response latency
- Built an interactive frontend dashboard for real-time data visualization, enhancing situational awareness and usability for end-users

Smart Expense Tracker | MongoDB, Express.js, React.js, Node.js, JWT

[GitHub Link](#)

- Engineered a full-stack expense management application using the MERN stack, implementing secure JWT authentication and RESTful APIs for reliable transaction processing
- Designed and optimized MongoDB schemas for complex financial data, improving query performance and ensuring data integrity for analytical operations
- Developed responsive and dynamic UI components using React.js, delivering a seamless cross-device user experience and improving user engagement

EDUCATION

Amity University Ranchi

Jharkhand, India

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2023-2027

CGPA: 7.10 / 10.00

S.M.D.College.Nechua Jalalpur(BSEB)

Bihar, India

Higher Secondary Certificate (Class XII)

2023

Bihar Vikas Vidyalaya (CBSE)

Bihar, India

Secondary School Certificate (Class X)

2021

CERTIFICATIONS

- **Data Science using python** – IBM (Cognitive Class) | [View Certificate](#)

ADDITIONAL INFORMATION

- **Languages:** English (Professional), Hindi (Native)
- **Availability:** Open to internships and full-time roles
- **Interests:** Open Source Contribution, Competitive Programming, AI/ML Research
